

TCS Sorter

Smartphone, Tablet or Computer

SET UP, CONTROL AND MONITOR TCS SORTERS FROM ANYWHERE IN THE WORLD WITH **TOTAL SERVICE CONNECT™**.

- Any Delta TCS Sorter may be remotely accessed and controlled from any smartphone, tablet or internet-connected PC.
- Secure sign-in with Advanced Encryption Standard (AES) encryption.
- Reduced down time and service costs. The same functions on the TCS control panel are available remotely to Delta engineers, assisting with set up, calibration and troubleshooting.
- Mobile apps for smartphones and tablets are available from their respective app stores.
- Multiple PCs and portable devices can be connected simultaneously. No limit on the number of TCS Sorters that can be accessed and remotely controlled.
- *Total Service Connect™* can be added to any new or previously installed Delta TCS Sorter.
- Contact Delta Technology for additional information, system requirements and costs.
